

Remedia's Radiation Protection Bag for Homeopathic Remedies

The arrival of modern technologies in everyday life led to additional radiation exposure. Among other things, radiation has been linked to radar beams, microwaves, induction cookers, wireless routers, GSM mobile radio antennas, mobile phones, and DECT cordless telephones.

Protection for your homeopathic remedies!

Effective radiation protection through high-quality silver fabric grants shielding up to 99.99%. Remedia radiation protection bags store up to five Remedia 1g globules tubes or up to five 10g Remedia globules vials of homeopathic remedies.
